## PROFESSIONAL EXPERIENCE

### Appinventiv Technology

Software Developer

Noida, India

August 2021–Present

#### US Med Premium | February-2024 - Present

- Contributed to the development of the US Med Premium project.
- Utilized modern technologies like Next.js 14, Tailwind CSS, and TypeScript.
- Implemented robust and user-friendly features.
- Effectively utilized React Hook Form, Zod, and Shadcn/UI.
- Employed a well-structured state management system with Redux Toolkit and Redux Persist.
- Led a team of 3 developers, coordinating tasks and setting milestones to consistently meet project deadlines and deliver high-quality software.

#### The BodyShop | May-2022 – January-2024

- Developed ReactJS website with SEO in mind.
- Migrated to Next.js for enhanced performance and user experience.
- Implemented seamless payment integration.
- Optimized for SEO and improved performance with Server-Side Rendering.
- Built as a Progressive Web App for offline functionality and enhanced user engagement.

#### The BodyShop - CMS Panel | August-2021 – April-2022

- Singly handled the entire CMS panel from the frontend, taking ownership of the full UI, API integrations, and frontend functionality.
- Responsible for end-to-end front-end development, including routing, state management, and component architecture.
- Integrated with various APIs to deliver seamless user experiences.
- Developed a fully responsive and accessible UI using Material UI v4, ensuring optimal performance across devices.
